### **What are cookies?**

Cookies are small pieces of data stored in text files that are saved on your computer or other devices when websites are loaded in a browser. They are widely used to remember you and your preferences, either for a single visit (through a "session cookie") or for multiple repeat visits (using a "persistent cookie").

Session cookies are temporary cookies that are used during the course of your visit to the Website, and they expire when you close the web browser.

Persistent cookies are used to remember your preferences within our Website and remain on your desktop or mobile device even after you close your browser or restart your computer. They ensure a consistent and efficient experience for you while visiting the Website and Services.

Cookies may be set by the Website ("first-party cookies"), or by third parties, such as those who serve content or provide advertising or analytics services on the Website ("third party cookies"). These third parties can recognize you when you visit our website and also when you visit certain other websites.
